

DIGIFABULOUS
2014

Call to Artists

The Regis Center for Art will present a nationally juried exhibition, Digifabulous 2014, in the Quarter Gallery from March 25 - April 5, 2014. The exhibition will focus on works that are either wholly or partially digitally fabricated or were constructed via the assistance of digital fabrication. Works should relate to the fields of Fine Art and Design or anywhere in-between. Submissions from artists and designers, both professional and student, along with private and public firms are encouraged as it is our goal to showcase all of the unique and innovative ways the field of digital fabrication is being explored. To apply visit www.digifabulous.org and click on the apply link.
